

Quality Policy

SRXGlobal is committed to being responsive, flexible and a technological leader in order to exceed our customers' Delivery, Quality and Service expectations.

Paul Appleby, CEO
Dated: 7 May 2010

SRXGlobal will minimise its impact to the environment, help to prevent pollution and conserve natural resources by:

- Maintaining compliance with all local laws and regulations;
- Minimising the use of natural resources;
- Maintaining an accredited Environmental Management System (EMS) that meets the requirements of ISO14001;
- Reducing waste to landfill by re-using or recycling wherever possible and practical;
- Communicating to employees, suppliers and customers, awareness of our EMS; and
- Setting objectives and targets to continually improve our environmental performance.
